## PROFESSIONAL SUMMARY

Information Technology student with a proven track record of leading cross-functional development teams and delivering high-impact web applications. Successfully spearheaded 10+ web projects using modern JavaScript frameworks, demonstrating expertise in **React.js**, **Next.js**, **Vue**, and **Quasar**. Combines technical excellence with strong leadership abilities, having managed teams of 6+ developers across multiple successful projects. Known for rapidly adopting new technologies and frameworks through self-directed learning, while maintaining a focus on scalable, production-ready solutions.

## WORKS EXPERIENCE

### MOOI Studio

May 2024 - July 2024

Frontend Engineer Intern

- Contributed to the development of a responsive dashboard using React, TypeScript, Ant Design, and Tailwind CSS, implementing over +1,000 lines of code
- Implemented key features in the user-facing Next.js application, including product detail pages and shopping cart functionality, writing more than +1,500 lines of code
- Collaborated with cross-functional teams to integrate RESTful APIs, reducing data fetching time by 35% and enhancing overall application performance.
- Implemented state management solutions using React Query, resulting in a 20% reduction in unnecessary re-renders and improved application responsiveness.

### Kawan Kerja

March 2024 - June 2024

Frontend Developer Intern

- Suggest a migration of 25+ page web application from Create React App to a modern framework, Vite, significantly improving build performance and development experience.
- Refactored and reorganized the project's folder structure, enhancing code maintainability and future collaboration.
- Successfully integrated front-end components with a separate back-end system for over 15 pages, enabling seamless data exchange and user interaction using Axios.

## PROJECTS EXPERIENCE

### Masyarakat Iktiologi Indonesia

September 2024 - December 2024

<https://iktiologi-indonesia.or.id>

- Developed 15+ responsive pages and an admin dashboard using Next.js and Ant Design, reducing page load times by 60% compared to the previous version
- Optimized frontend performance through React Query implementation for API integration, achieving a 30% reduction in data fetching overhead
- Orchestrated deployment infrastructure using Traefik, Watchtower, and GHCR, resulting in 99.9% uptime and automated updates.

## EDUCATION

### University of Brawijaya - Malang, Indonesia

August 2022 - August 2026 (Expected)

- Cumulative GPA: 3.79 / 4.0

# AWARDS

---

## Finalist of GEMASTIK Software Development 2023

*Pusat Prestasi Nasional - Indonesia*

- Secured a position in the top 20 out of 264 participating teams. Distinguished as the only contingent from University of Brawijaya in the Software Development Division
- Design the UI design and led the front-end development of an Android app, while also contributing to back-end development using Vue Js, Quasar, JavaScript, Node Js, and Cordova as the primary technologies.
- Implemented 5+ CRUD (Create, Read, Update, Delete) functionality to support the app's mission of optimizing the distribution of donations in Indonesia following natural disasters

# ORGANIZATIONS EXPERIENCE

---

## Google Developer Student Club University of Brawijaya

September 2024 - Present

*Curriculum Lead*

- Developed a curriculum module website for 300+ student members, strategically aligning module content with Google's technical curriculum standards
- Led a team of 5 instructors to deliver 8+ technical workshops on cloud computing, web development, UI/UX, Product Management, Machine Learning, and Android Development, achieving 80% positive participant feedback

## Basic Computing Community

January 2024 - December 2024

*Head of Frontend Department*

- Designed and implemented a comprehensive year-long curriculum focused on React.js best practices and TypeScript, driving technical excellence across the department
- Developed and conducted regular technical workshops on modern frontend development practices, improving team productivity and code quality

# SKILLS

---

- Technical: HTML, CSS, JavaScript, TypeScript, PHP, SQL, GIT
- Framework: React.js, Next.js, Vue.js, Quasar, Node.js, Laravel
- Databases: MySQL, PostgreSQL
- Tools: Postman
